## **LISTING OF CLAIMS**

- 1. (Original) A composition comprising a cell, tissue, or organ and glucosaminoglycan in the absence of serum.
- 2. (Original) The composition of claim 1 wherein the glucosaminoglycan is hyaluronan.
- 3. (Original) The composition of claim 1 wherein the composition is for preserving cells.
- 4. (Original) The composition of claim 3 wherein the cells are non-cultured.
- 5. (Original) The composition of claim 3 wherein the cells are cultured and preserved at a temperature of above freezing.
- 6. (Original) The composition of claim 3 wherein the cells are not unkeratinized epithelial cells.
- 7. (Original) The composition of claim 3 wherein the cells are non-corneal.
- 8. (Original) The composition of claim 3 wherein the cells are non-ovarian.
- 9. (Original) The composition of claim 3 wherein the cells are non-musculoskeletal.
- 10. (Original) The composition of claim 3 wherein the cells are in the absence of a non-cell penetrating cryoprotectant.
- 11. (Original) The composition of claim 3 wherein the cells are preserved at a temperature above freezing.
- 12. (Original) The composition of claim 3 wherein the cells are preserved at a temperature below freezing.
- 13. (Original) The composition of claim 1 wherein the cells are epithelial cells.
- 14. (Original) The composition of claim 13 wherein the cells are non-cultured.
- 15. (Original) The composition of claim 13 wherein the cells are cultured and preserved at a temperature above freezing.
- 16. (Original) The composition of claim 13 wherein the cells are preserved in the absence of a non-cell penetrating cryoprotectant.
- 17. (Original) A method of making a cell-containing storage solution comprising utilizing a solution comprising a glucosaminoglycan in the absence of serum; and placing the cells in the solution.
- 18. (Original) The method of claim 17 wherein the glucosaminoglycan is hyaluronan.
- 19. (Original) A method of preserving cells comprising utilizing a solution comprising glucosaminoglycan in the absence of serum; and storing the cells in the solution.
- 20. (Original) The method of claim 19 wherein the glucosaminoglycan is hyaluronan.

- 21. (Original) The method of claim 19 wherein the cells are preserved at a temperature above freezing.
- 22. (Original) The method of claim 19 wherein the cells are preserved at a temperature below freezing.
- 23. (Original) A method of treatment comprising obtaining cells; storing the cells in a solution comprising glucosaminoglycan in the absence of serum; and using the cells in treatment.
- 24. (Original) The method of claim 23 wherein the glucosaminoglycan is hyaluronan.
- 25. (Original) A kit comprising a storage solution comprising hyaluronan in the absence of serum and cells.
- 26. (Original) The kit of claim 25 wherein the cells are stored at a temperature above 0°C.
- 27. (Original) The kit of claim 25 wherein the cells are in sheets.
- 28. (Original) The kit of claim 25 wherein the cells are in solution.
- 29. (Original) The kit of claim 25 wherein the cells are a tissue.
